

# Marine Protected Areas Management and Monitoring

MarPAMM is a cross-border environment project, which aims to improve the monitoring and management of protected marine species and habitats in Ireland, Northern Ireland and Western Scotland, allowing the region to deliver EU and national biodiversity obligations.

The project will deliver four models and six management plans for Marine Protected Areas across the region.

Who delivers this project?

Who funds this project?

The €6.4 million MarPAMM project is supported by the European Unions' INTERREG VA Programme, managed by the Special EU Programmes Body (SEUPB). Match funding has been provided by the Department of Housing, Planning and Local Government in Ireland and by the Department of Agriculture, Environment and Rural Affairs in Northern Ireland.
